

Light & Contrast

Trapeze LED Table Light **Design** Peter Stathis, San Francisco

TRAPEZE LED Tischleuchten

Verspielt und mit viel Lebensfreude strahlt die TRAPEZE LED Tischleuchte ausgewogenes Licht auf den modernen Arbeitsplatz. Mit einem uneingeschränkten Aktionsradius, ihren 3 Achsen und dem auf Gewicht und Gegengewicht beruhenden Design sind alle Bewegungen frei und fließend. Das Licht kann genau dort eingesetzt werden, wo es auch gewünscht ist. Dank der neusten LED Technologie beleuchtet der ultradünne Diffusor eine grosse Fläche mit gleichmässig verteilterm, hellem und zugleich warmem Licht.

Lampe de Table TRAPEZE LED

Une Lampe de Table élégante et joyeuse, la TRAPEZE LED vous donne une excellente lumière bien équilibrée. Avec un rayon de mouvement illimité et 3 axes ses mouvements sont libres et gracieux. Le design se base sur le poids et le contrepois. La lumière tombe exactement là où elle est souhaitée. Grâce à la nouvelle technique LED le diffuseur élégant et fin éclaire une grande surface avec une excellente lumière chaleureuse en atmosphère mais pas en température.

Trapeze LED Table Light

Specifications & Features

Materials: Aluminium, steel, iron, plastic

Colors: White, Charcoal, Orange and Blue / Soft Touch finish

Light source: 102 8W LED array

Cord: 9 ft / 274 cm cord with detachable power adapter

Power consumption: 8 W

Light output: 15 to 1000 lux / 380 max. lumens / dimmable

Light warmth: 2700 Kelvin

Weight: large 9.5 lb, 4.3 kg / small 4.9 lb, 2.2 kg

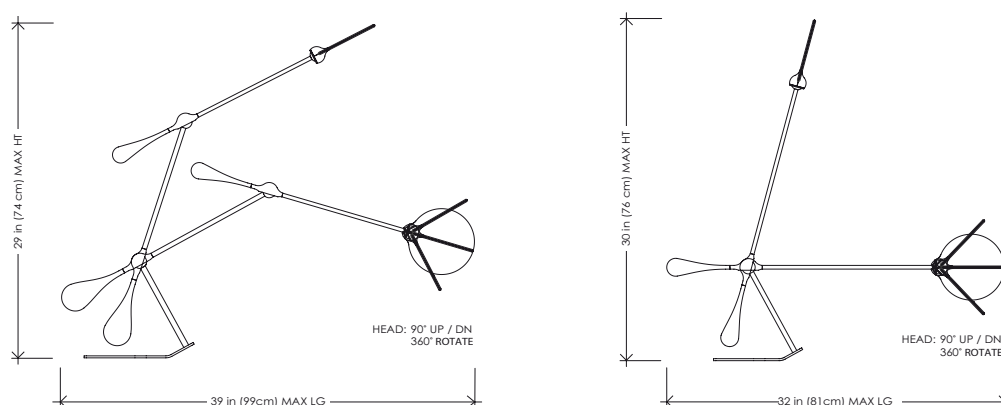

Listings: UL, CE, FCC

TRAPEZE Technology

This cutting-edge technology is referred to as Optical Waveguide. LED light is shot into the thin edge of a light guide. With extremely specialized and precision designed optics molded-in along with various external lenticular films, the light changes direction and passes out the front surface of the light guide. It is the same way flat panel monitors and TVs work, and this is where the designer Peter stathis took inspiration when he began to develop this technology some years ago.

A revolution in lighting ignited by technology and movement

The TRAPEZE LED Table Light balances all of the performance demands of both workplace and home with a combination of innovative form and technical function. With its variable proportions and seamless solid-state aesthetic, Trapeze is a striking sculptural piece as well as an extremely functional tool, animating any work or living space with both purpose and play.

State-of-the-art optical performance in an ultra-thin flat panel head illuminates a large area with bright and even., glare-free, warm light.

Uninhibited in its 3-axis range of motion, the counterweighted design achieves fluid, sweeping movement in every direction.
